

Qualys Cloud Platform

Advania conference workshop

Joash Herbrink
Security solution architect – Qualys

Agenda

Who are we?

What can we do for you?

Seeing is believing ;-)

Global Visibility in a Perimeter-less world

On Premise

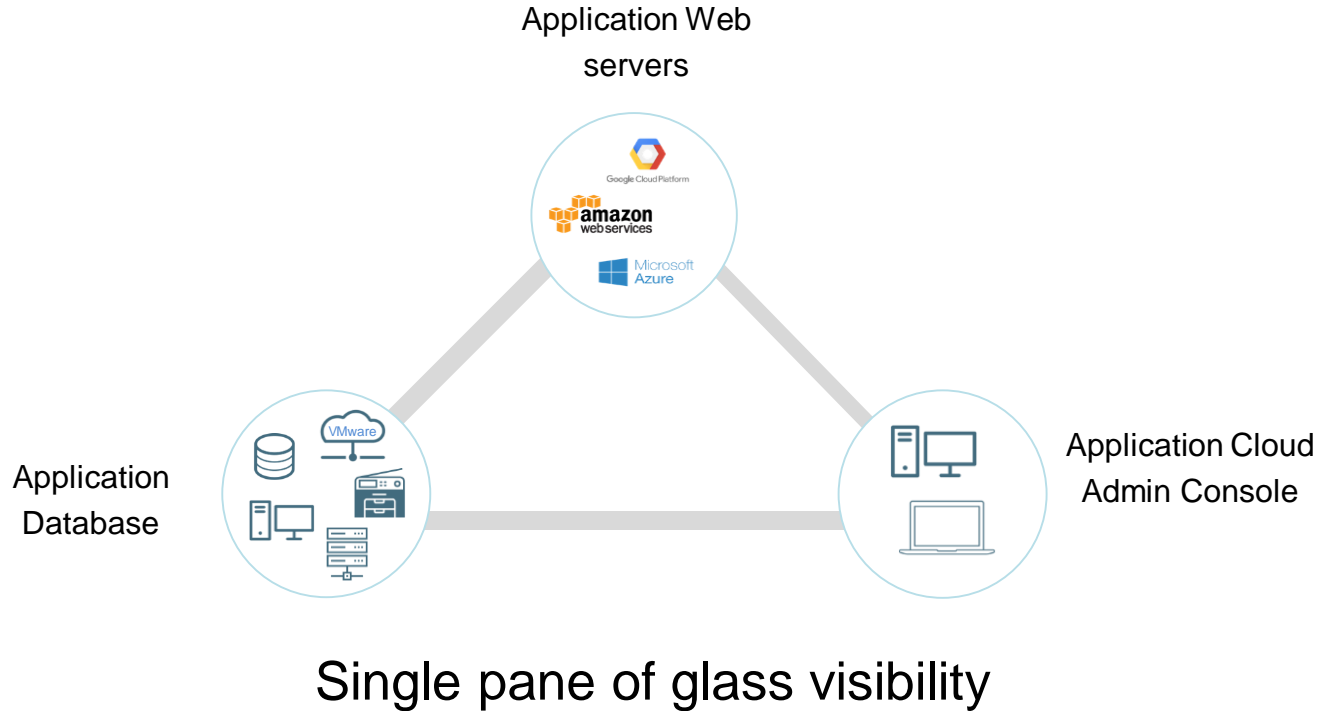

Endpoints

Cloud

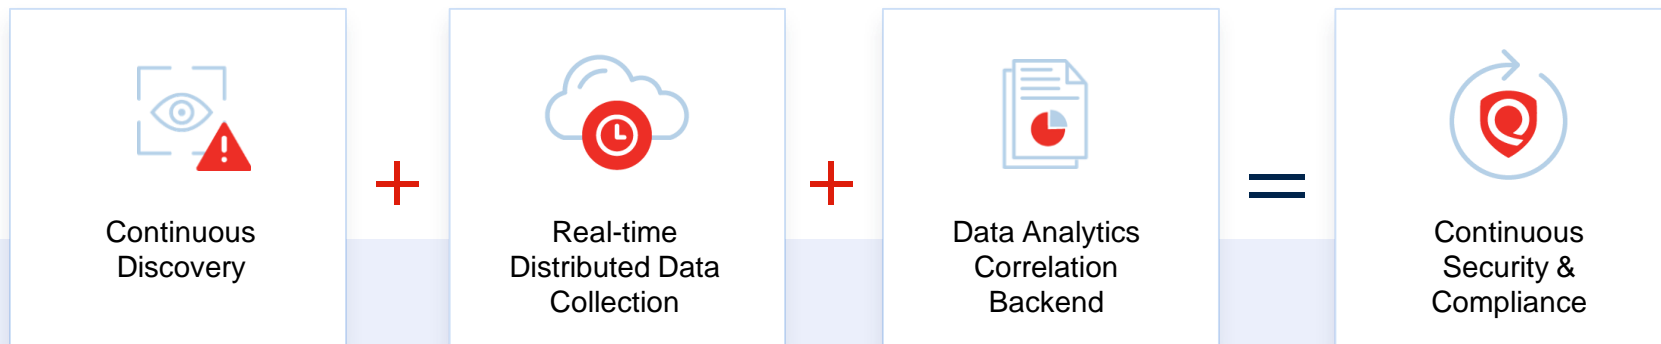

Interconnected Systems

Hybrid Infrastructure

Securing the Global Enterprise

Continuous Security & Compliance View

Qualys Platform
Cloud Oriented Architecture

Qualys Cloud Platform

Key New Extensions

Integrated Suite of Applications

Qualys API

Analytics and Reporting Engines

Reporting & Dashboards

Remediation and Workflows

Distributed Correlation

ElasticSearch Clusters

Solr Lucene Indexing

Oracle and BFFS Storage

Distributed Sensors

Hardware

Virtual

Cloud

Agent

Passive

API

3+ billion

IP scans and audits per year

100 billion

Detections per year

1+ trillion

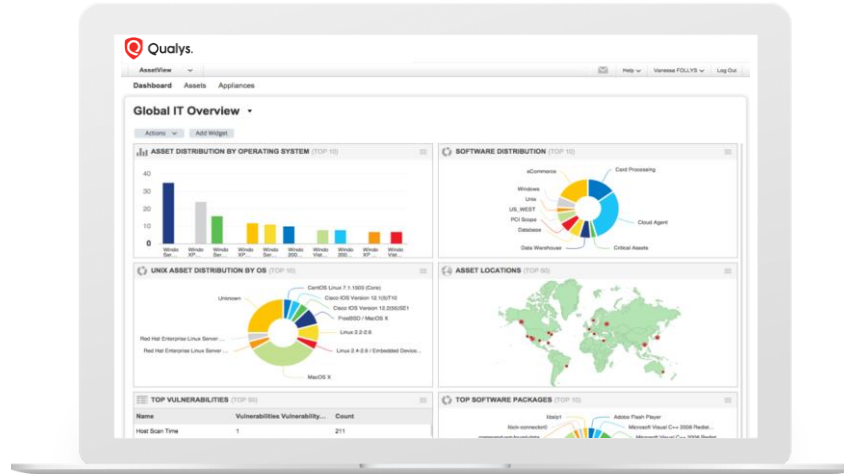

Security events per year

AssetView with Elasticsearch

Instant Query
Unified Asset
View

Dynamic
dashboards

Free AssetView
Agent for Asset
Inventory

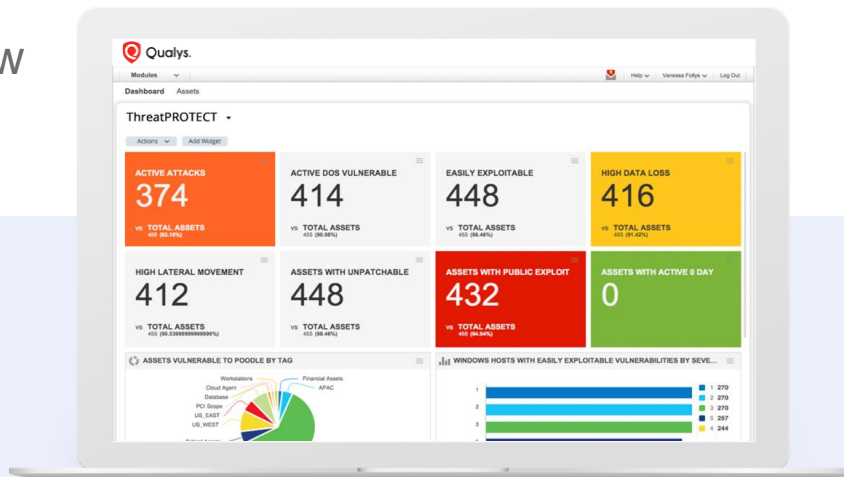

CMDB sync
ServiceNow

Splunk TA

Introducing Threat Protection Actionable Threat Intelligence

Holistic
and Contextual View
of the Threat
Landscape

Visualize &
Prioritize
Remediation
efforts
